A New Resource to Explore Our Family History!

Three Indexes Covering Nearly 40 Years of Publications

Dear Members,

Since 1989, the Association des Levasseur d'Amérique has published articles, genealogical studies, biographies, and historical accounts. This collection now includes **over 2,500 pages** in French and English. To make this valuable resource more accessible, we are pleased to announce three indexes covering all our publications since 1989.

Three Ways to Explore Our Archives

- **Chronological Index (by date):** Allows readers to find publications by year of publication.
- **Subject Index:** Makes it easier to locate specific articles and information.
- **Thematic Index:** Particularly valuable, this index groups articles by broad themes and related concepts rather than simply listing them alphabetically. It helps readers discover connections between articles published years apart.

Artificial Intelligence Serving Our Heritage

Creating these indexes was a monumental undertaking. Had this task been carried out manually by a volunteer, it would likely have required **more than 100 hours of work**.

Thanks to **artificial intelligence (AI)** tools, we were able to complete this enormous project in **less than a single day!** This is an excellent example of how modern technology can support our Association and make nearly 40 years of accumulated knowledge more accessible to everyone. The indexes were reviewed by our volunteers; if you notice an error or a missing article, please let us know at webmaster@levasseur.org.

Discover Our Three Indexes!

We invite you to explore these new resources in the **Publications** section of our website: https://levasseur.org/en/newsletters/ .
