Good news !

We have created new (bilingual) genealogical records of the ancestors Pierre and Laurent Levasseur, which cover the first generations of their descendants and their spouses. This new application will be a valuable tool for non-members wishing to be initiated to learn genealogical research on the Levasseur ancestors. People who want to pursue their genealogical research are invited to join the Association to access a full version of these two databases. Bilingual biographies are also available on these web pages. Here is the address of these two new sites:
