Joceline and I have been collecting the obituaries from various newspapers for some time.

This is valuable information since the data originates directly from the family of the deceased. In addition, it is one of the only remaining sources of information. The information contained in the registers, the BMD (baptisms, marriages, and deaths) and those managed by the Director of civil status of Quebec and other provinces are no longer accessible.

The parish registers no longer reports all BMDs as was done decades ago since less people have their children baptized, people do not necessarily get married in churches and there are less funerals in churches.

As a result, obituary notices are the lifeline of genealogists to collect information about families.

Member users of our database of genealogical data gain additional information about a person's life. Indeed, they can consult the text of the obituary of the deceased if it has been made available to us. We have been adding this information on our database for the past decade.

In addition, thousands of photos of deceased Levasseurs and Carmels published in the obituary sections of newspapers have been added to the website. Our previous website could not accommodate this feature.

OUR NEW SECONDARY SITE DEDICATED TO THE DATABASE

www.levasseur.org/tng

Jean-Pierre has done a thorough and remarkable job to implement this new platform hosting the Levasseur website. Jean-Pierre has also inserted a lot of items on the new site, including newsletters, photos, etc.

After multiple tests, we were able to develop a methodology to insert and add the photo of the deceased person listed in our genealogical database.

Since January 2019, the photo and obituary text of the recently deceased are being inserted.

The photo of the deceased appears on the left. The name, year of birth and death appear under the name of the deceased and his or her age are in parentheses.
